

Dear Margaret & Peter,

I spoke to you on the phone Feb 07, (after weeks of study on the net,) decided to try your Saturn Omni 3000. I took it to Beachfront Caravan Park, North Haven (Laurieton, NSW) March 07. The area is the worst ever for TV reception. I got perfect picture immediately, stuck up 4 huge trees with no fuss or fiddlin', see attached photo. Well it was the talk of the park, so my brother Ian King bought one (also from Dick White) as soon as we returned, for his caravan. I also sent 2 more customers to Dick from that park.

May to June 07 we travelled NSW Sth coast Tuross, Kosiosco National Park, Old Adaminaby on Lake Eucumbene (where we added digital set top box's) Cooma, Albury, Moame/Echuca, Nerrandera, Cowra reception was great all the way, and I sent 2 more customers to Dick White from Moama, they were heading out to Bourke.

We are sooooo happy with your product, can't praise it enough. My brother took his new digital camera and got carried away (night photo's of Omni) on his caravan. I drive a coaster, so we thought you might like our photos, and could use them if you want,

Kind regards,

Carole King
Central Coast NSW
